

# New Commercial Division

Here are the rules:

This is a judge's interpretation division open to all species. **It will be judged for aesthetics, not mechanics.** Competitors should strive to present life-like entries. Any species of bird, fish, reptile, mammal or combination can be mounted in a display and entered to be viewed and interpreted by the judges **without the use of a flashlight and from a distance of ten feet away.** The judge will write a brief comment and overall score, NOT a detailed score sheet. Their decision is final. They alone decide upon the score an entry receives. Since this is a commercial division, there will be no bonus points for septum's or nictitating membranes, but if they are installed and the judge decides that they are installed wrong he will doc points accordingly. The mount must be done by the competitor alone without assistance. The division was created for those of us that sit in our shops and wonder if that piece had a septum what would it score. So go have fun with it and try not to get too competitive. Just grab something off the wall, table or floor and come and compete!
