

Judges for the 2012 Competition

Life-Size Mammals and Fish/Reptiles: This year we are very excited to have **Chris Kruger**. He is a winner of several State, National and World awards with his taxidermy. He is a gifted artist and his insight on small mammals is very deep. Chris is from Phoenix AZ where he runs a successful taxidermy business.

Game Heads: **Barry Smith** is a seasoned taxidermist and an avid bowhunter with years of judging experience. He's been doing taxidermy since he was 12 and competing in State, National, and World shows since 1976. He loves all big game but his favorite things to mount are sheep and goats. He lives in Hot Sulpher Springs CO with his wife, and has four children and three grand children.

Birds: This year we are welcoming back Mr **Danny Owens** from Lubbock Texas. He judged our birds two years ago and said that our show was the best state show he'd ever been to. He begged me to have him back some day and I was only too happy to oblige. Danny is a very talented Bird taxidermist with too many credentials to mention. He's a fun guy, and I can't wait to have him back.

Youth and Novice: **Scott Humble** has graciously offered to judge the novice entries again this year. He is so patient and helpful with new comers I can't think of a better man for the job. Thanks again Scott.
